Gazebo Display

- Our goal is to manufacture a good quality gazebo at a reasonable price.
- At our plant we use only #1 pressure treated southern yellow pine that we call a #1 select.
 - All cedar shakes are top quality #1.
- Metal roofing is very durable and maintenance free, yet attractive.
 - Octagon screwed floor is standard on all gazebos.
- Very few nails are used, as most everything is screwed together for a long lasting, beautiful enhancement to any property.
- All gazebos shown in the brochure are either painted white or stained with a cedartone sealer.

12 x 12 Double Roof
with Cedar Shakes,
Cupola, Table
and Benches
